

PRODUCT SOLUTIONS BRIEF
LEGRAND

HEALTHCARE FACILITY COMMUNICATION EFFICIENCY

Through our strong global partnerships and alliances with manufacturers like Legrand, we are able to present you with the following offering to meet your specific healthcare facility requirements.

Wireless A/V for HDMI® Devices

Always start on time with the Wireless A/V for HDMI devices kit. This plug-and-play system allows A/V signals from a laptop, tablet or Blu-ray player to wirelessly connect to an HDMI projector or HDTV located up to 100 feet away.

There is no need for cables to be run under the floor, through the ceiling or up a wall. Mount the receiver near the display and the transmitter near the presenter, then make the connections for HDMI and power on both the transmitter and receiver. This do-it-yourself solution includes all the components required for the setup and does not require an experienced A/V installer.

Wireless A/V for HDMI devices

CHALLENGE SOLVERS

- Setting up A/V equipment often requires running cables in wall or plenum space, but with the Wireless A/V for HDMI solution there is no need to run these costly wires.
- The straightforward installation takes almost no time to set up, and the simplified operation ensures all staff members can use it without training.

THE ANIXTER APPROACH

- **Visual Engagement**
Support the new ways that people deliver and consume information through digital signage and mobile devices.
- **Personal Notification**
Simplify individual communication between medical staff, patients and administrators to increase satisfaction and accuracy.
- **Mass Notification**
Capture the attention of staff and visitors and deliver vital information through mass notification solutions.
- **Unified Communication**
Choose the appropriate communications equipment to provide a high quality voice, data and video experience for employees.
- **Noise Reduction**
Increase patient satisfaction and outcomes in various environments with well-designed noise reduction solutions.
- **Emergency Notification**
Provide direction to act and communicate to multiple groups, enhancing responsiveness and improving care.

WHAT WE HEAR

Healthcare stakeholders are dealing with a variety of challenges:

Improving **RESPONSIVENESS** of patient care

Administer **SEAMLESS** wireless availability

Initiating **EMERGENCY** management

Reducing **NOISE** pollution

Providing **DIRECTIONAL GUIDANCE**

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to targeted healthcare engagement in your patient-centered environment.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Resolution
- Distance
- Installation considerations
- Connection type

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- HDMI to VGA adapter
- HDMI cables
- HDMI to DVI adapter
- HDMI to DisplayPort adapters

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labeling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

LEGRAND WIRELESS A/V FOR HDMI® DEVICES FEATURES

✓ EFFORTLESS CONNECTIVITY

- Simple, one-connection solution allows for quick transition from one user to another.
- Solution encourages productivity, innovation and teamwork as users present their ideas.

✓ EASY INSTALLATION

- Any room can be retrofitted to be a huddle space.
- Secure wireless transmission of the A/V signal does not require new cables or existing cable infrastructure.

Connectivity made easy
