

PRODUCT SOLUTIONS BRIEF
LEVITON

HEALTHCARE FACILITY RISK MANAGEMENT

Through our strong global partnerships and alliances with manufacturers such as Leviton, we are able to present you with the following offering to meet your specific healthcare requirements.

Copper and Fiber Secure Connectivity

Prevent unauthorized or accidental network moves, adds or changes with Leviton Copper Secure RJ and Fiber Secure Keyed LC Solutions. Both provide physical security with cable assemblies and port blockers that lock into industry standard ports and can only be removed with a matching keyed extraction tool. Eight colors are available to reserve, identify, segregate and secure network ports.

CHALLENGE SOLVERS

- Physical security for mission-critical healthcare networks
- Cost-effective solution for retrofitting networks and new builds for improved security
- Patented locking mechanism built into the body of each duplex fiber LC and copper RJ connector, which cannot be released without matching color extraction tool
- Secure port blockers that lock and protect unused LC and RJ ports from the unauthorized insertion of a cable assembly or connector

THE ANIXTER APPROACH

- **Property Perimeter**
Determine vulnerable areas around the property edge to deter external threats.
- **Reception and Registration Area**
Control the flow of visitors and patients to the facility and validate various levels of staff authorization.
- **Specialty Units**
Protect patients and comply with privacy regulations with attention to complex specialty units.
- **Emergency Room**
Improve staff safety and care through effective management of high-stress and high-traffic emergency settings.
- **Pharmaceutical Assets**
Achieve regulatory compliance and loss prevention by monitoring access and intrusion to pharmaceutical zones.
- **Biomedical and Diagnostics**
Protect valuable equipment and potentially harmful materials in biomedical and diagnostic areas.

THE LEVITON SOLUTION

WORK AREA APPLICATIONS

RJ: Fits standard jacks in wall plates or surface boxes
 LC: Used with Multimedia Outlet System plates/inserts

LC CORDS AND PIGTAILS

Fits industry-compliant LC adapters
 Ceramic ferrules for top performance

LC CONNECTORS AND ACCESSORIES

Field-installable LC
 Removal with matching color extraction tool
 Plugs lock unused ports

Secure RJ system prevents accidental or unauthorized disconnections and blocks unauthorized access.

WHAT WE HEAR

Healthcare stakeholders are dealing with a variety of challenges:

Creating **SAFE** environments for patients and staff

Preventing **THEFT** of medicine and radiological materials

Achieving **REGULATORY COMPLIANCE**

Preventing **CYBER THREATS** to patient records

Limiting physical building and network **ACCESSIBILITY**

Infrastructure as a Platform
 by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to deploy physical security infrastructure into your healthcare environment.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Eight colors
- Port blockers
- Keyed extraction tools

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

Fits multiple copper and fiber systems:

- Atlas-X1
- eXtreme
- GigaMax
- OptX SDX

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labeling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

LEVITON COPPER AND FIBER SECURE CONNECTIVITY FEATURES

✓ INTELLIGENT PATCHING COMPATIBLE

- Fits all industry-standard connectors
- Transparent housings don't block LED status lights

✓ HIGH-DENSITY FRIENDLY

- Extraction tool designed for easy access to high-density settings
- Secure housings compatible with high-density installs

Secure LC and Secure RJ provide physical security for mission-critical healthcare networks.
