

# SOLUTIONS Linecard

## SUPPLY CHAIN SOLUTIONS FOR CONTRACTORS AND INTEGRATORS

Remaining competitive, managing labor costs and maintaining profitability while keeping up with the demands of your customers is the priority for many contractors and integrators. Anixter's Supply Chain Solutions can help support these goals by helping to save time, reduce costs, increase efficiencies and mitigate risk for your business.

### SOURCING

Researching, identifying, validating and pricing products and managing multiple low-volume suppliers can be time consuming and create inefficiencies in your business.

### INVENTORY MANAGEMENT

Managing lead times and returns along with replacement, obsolete, excess and scrap inventory can be time consuming and have an adverse effect on your schedule and budget.

### PRODUCT ENHANCEMENT & PACKAGING

Preparing the products you buy for installation can be costly and impact your time to market.

### GLOBAL LOGISTICS

Every time products are moved or transported, the risk of project delays and added costs increase.

### eCOMMERCE

Transaction processing is an operational necessity; however, it can be a burden on cost, efficiency and time.

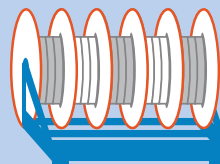

### SAVE TIME

### REDUCE COSTS

### INCREASE EFFICIENCY

### MITIGATE RISK

Improve cash flow, reduce working capital and increase labor efficiencies through custom solutions for your business.

## Product Enhancement and Packaging

### Customized Kitting Solutions

*Ideal for enclosures, fiber panels, patch panels and racks used in closet, floor, work area, site and row projects*

- Repeatable products grouped together
- Single custom part number
- Manufacturer product sourcing
- Inbound logistics and lead-time management
- Kit and assemble per project specification
- Package and label creation
