

PRODUCT SOLUTIONS BRIEF

VERTIV

HEALTHCARE FACILITY IoMT ENABLEMENT

Through our strong global partnerships and alliances with manufacturers such as Vertiv, we are able to present you with the following offering to meet your specific healthcare requirements, including enabling the Internet of Medical Things (IoMT).

SmartRow™

Vertiv's SmartRow is a fully integrated data center infrastructure solution equipped with power, thermal management, dry agent fire suppression, infrastructure management and monitoring solution from Vertiv. It is designed for indoor environments such as small- and medium-sized data centers or computer rooms. SmartRow can store 19-inch rack-mount IT hardware equipment such as server, storage and networking devices. It features cabinets, closed-aisle cooling system, power distribution and centralized infrastructure monitoring system.

SmartRow DCR

CHALLENGE SOLVERS

- Reduces time and cost of implementation order, install and implement within weeks
- Saves up to 28 percent on room upgrades compared to up fitting a room as a conventional data center
- Ensures efficiency and availability with Liebert® iCOM™ controls – manages cooling to optimize IT equipment performance and life
- Enhances performance and anticipates potential problems before they occur with infrastructure monitoring and management appliances and software
- Increases physical security and equipment protection with lockable cabinets and access alerts
- No longer have to dedicate an entire room for IT - SmartRow quietly operates in shared spaces without compromising on physical security, cooling or fire suppression

THE ANIXTER APPROACH

• Environmental Monitoring

Use occupancy, intelligent lighting, power and temperature sensor technology to achieve optimal comfort and energy efficiency.

• Security Integration

Create interoperability between video surveillance, access control and intrusion detection systems.

• Network Connectivity

Provide a standards-based IP platform that can run multiple applications, and be remotely managed and measured.

THE VERTIV SOLUTION

POWER CONFIGURATION

20 kW load
36 kW load
Panel boards

CABINET CONFIGURATION

3-10 cabinet solutions

PRECISION COOLING

Automatic backup fans
Cooling method
Redundancy options
High-capacity options

WHAT WE HEAR

Healthcare stakeholders are dealing with a variety of challenges:

Interdepartmental **CONFLICT**

Supplier **INTEGRATION** competency

MIGRATING to an IP platform

Justifying the cost of **EFFICIENCY**

Limitations of **EXISTING INFRASTRUCTURE**

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter provides a comprehensive approach to maximizing the potential of an automated healthcare facility, which starts at the physical layers.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Max kW load
- Number of racks
- Precision cooling
- Heat rejection

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- Redundant cooling units
- Liebert GXT4™ UPS system
- Rack PDU systems
- Trellis™ Platform

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labeling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

VERTIV SMARTROW FEATURES

✓ PROVIDES OPERATIONAL EFFICIENCY

- Reduces annual energy costs up to 27 percent
- Optimizes space efficiency through an integrated system
- Reduces maintenance costs with reliable design and efficient operation
- Increases IT efficiency by streamlining and centralizing monitoring and management

✓ STREAMLINE INTEGRATION

- Simplifies implementation through an integrated design
- Easily operates and manages infrastructure systems through integrated controls
- Provides operations continuity with single-system startup, warranty and preventive maintenance and repair
- Utilizes industry-leading service and support provided by local data center design experts

SmartRow is an intelligent, integrated infrastructure solution in a row.
