

How do you optimize your project to be on-time and under budget?

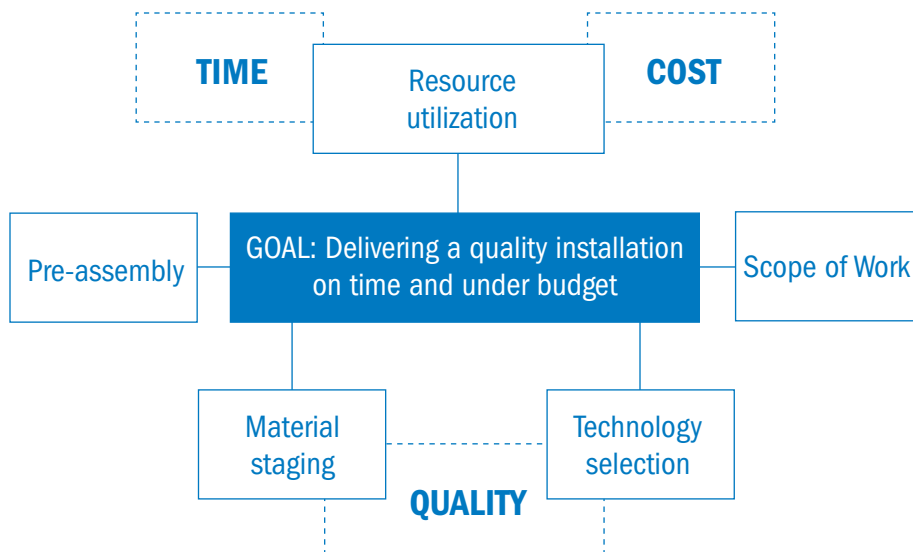

CONTRACTOR/INTEGRATORS PROJECT MANAGEMENT

The project management role is arguably the most challenging role within the project team. Having a partner that considers material and labor utilization during both pre and post award phases of a project will help increase job site efficiencies and profitability.

How do you adapt to the changing demands throughout the project life cycle?

PROJECT MANAGEMENT CONSIDERATIONS

PREPARING FOR JOB SITE EFFICIENCIES AND PRODUCTIVITY

How do you collaborate on resource utilization, scope of work, technology selection, material and pre-assembly opportunities?

WHAT WE HEAR
Challenges contractors and integrators face are:

Anixter as a Partner
Channel Solutions

Collaborating with Anixter as a Partner leads to a better understanding of your management process throughout the project life cycle and helps identify opportunities to partner for increased efficiency and productivity.

INTEGRATED PROJECT COORDINATION

The Anixter Approach

For the many important demands of managing a project, Anixter offers a relationship that provides collaboration in both pre and post project award.

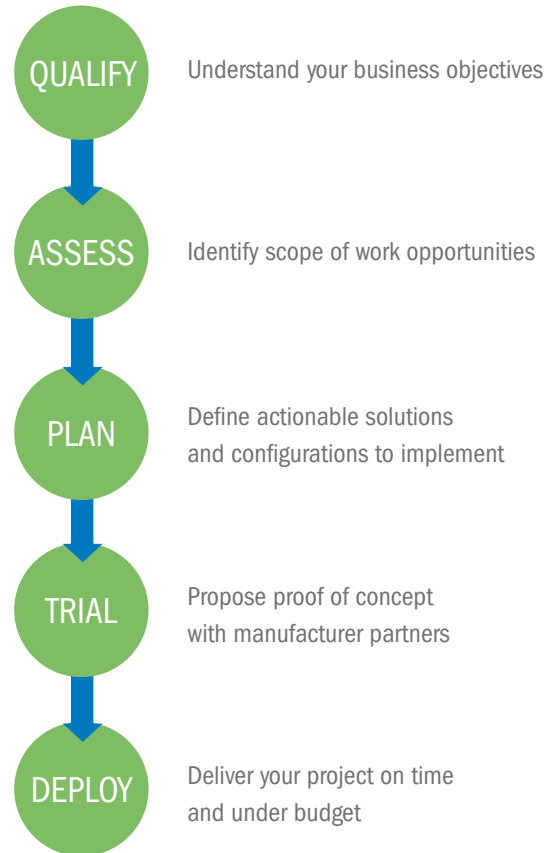

- Project scheduling**
 Understanding project milestones and time lines will allow Anixter to plan for inventory and value added services.
- Project budget**
 Look for areas to reduce cost with material consolidation and save time with off-site labor.
- Project procurement**
 Anixter offers solutions to help purchase, stage and manage a variety of material and technologies.
- Project management**
 Leverage Anixter's expertise with material management and deployment to uncover efficiencies during pre and post project award.
- Pre-assembly**
 Customized pre-assembled solutions that help save time, reduce cost, improve productivity and mitigate risk

PRODUCT AND DEPLOYMENT SOLUTIONS

Through innovative supply chain solutions and best-in-class manufacturer partners, Anixter distributes enterprise cabling systems, power solutions, enclosures and pathways, professional A/V, industrial communications and control, IT networking, electrical infrastructure, wireless, security and control technologies.
