

Can you capitalize on the tech skills of tomorrow's workforce?

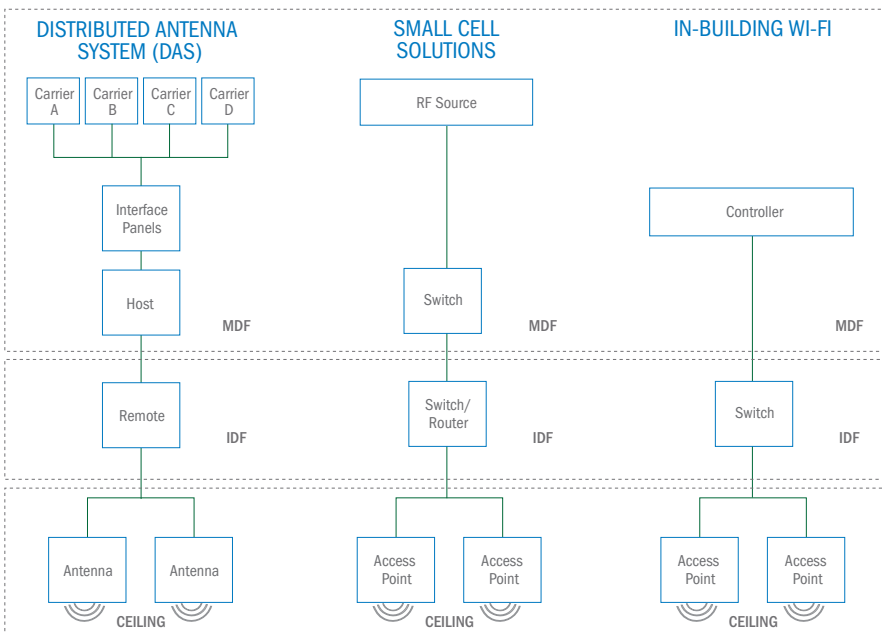

COMMERCIAL BUILDING WORKFORCE PRODUCTIVITY

Social and economic drivers are placing a larger focus on how workforce behavior can be improved with technology. Adequate bandwidth is required to facilitate the explosion of high-definition video and the new ways people deliver and consume information.

DIGITAL SIGNAGE TOPOLOGY

COMMON WIRELESS TECHNOLOGIES

WHAT WE HEAR

Challenges from the various commercial building stakeholders are:

Supporting a **BYOD** environment

Providing seamless **NETWORK AVAILABILITY**

Achieving **REGULATORY COMPLIANCE**

Restrictions of **LEGACY SYSTEMS**

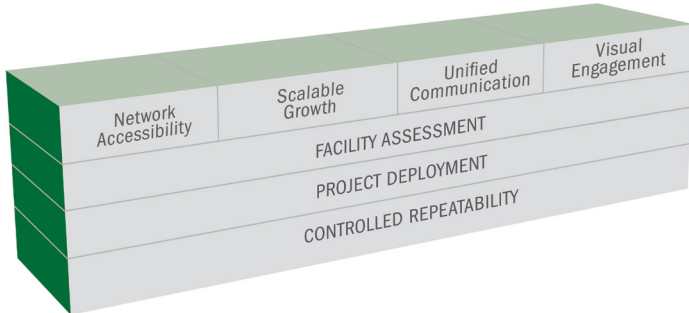

Enabling **COLLABORATIVE** business communication

Infrastructure as a Platform
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to support advanced mobility and communications in your commercial building.

ADVANCED MOBILITY AND COMMUNICATIONS

The Anixter Approach

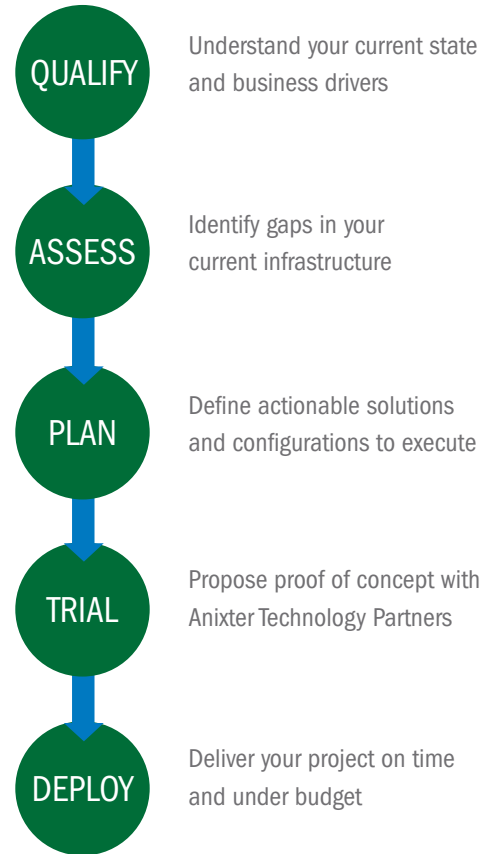

Our approach provides a clear set of guidelines and best practices for supporting advanced mobility throughout the building.

- Network Accessibility**
 Apply designs to accommodate your performance requirements and overall cellular coverage in your building.
- Scalable Growth**
 Determine the right choice to support the capacity increases of a BYOD and multi-device environment.
- Unified Communication**
 Choose the appropriate communications equipment to provide a high-quality voice, data and video experience for employees.
- Visual Engagement**
 Capture the attention of staff and visitors and deliver vital information through digital signage and mass notification solutions.

YOUR WORKFORCE PRODUCTIVITY PLATFORM

Anixter Engagement Process

You can further strengthen your network performance and enable interoperability by leveraging our expertise in technology sourcing, inventory management, product enhancement, logistics and eCommerce tools.
