**New! iBridge Touch<sup>®</sup> Touchscreen Proves the  
'Magic Touch' for Growing Dealers' New IoT Business Services**

Amityville, NY – NAPCO Security Technologies, known for developing innovative technology and reliable security solutions and services, is pleased to share that the all-new décor-neutral, iBridge Touch<sup>®</sup> Touchscreen is gaining new popularity, especially used in conjunction with its new matching iBridge App, recently debuted on iTunes and Google Play. iBridge Touch is an advanced, neutral-color, décor-friendly, wall-mounted touchscreen that controls security and/or video and smart automation (IoT services). Available in hardwire or wireless models, this slim-profile, high-res 7" full color touchscreen (#IBR-TOUCH & -WL, respectively) is ultra-responsive with a high-speed, quad-core processor, matching the iBridge Smart App for mobile services. iBridge Touch has an intuitive graphical icon-based user interface, helpful built-in voice prompts, onscreen MMS/SMS notifications, and offers easy one-touch security for arm, disarm, stay & away, plus a conventional keypad mode with *multi-brand* compatibility option.

In fact, iBridge Touch is ideally-teamed with the universal StarLink Connect<sup>®</sup> LTE Dual Path Cell/IP Connected Hub Communicator (-Z model). When integrated together for smart home/business accounts, the StarLink Connect provides connectivity for Z-wave IoT control of standard Z-wave locks, lights, t-stats & small appliances, and onscreen Video, multi-viewing of up to 6 iBridge Video<sup>®</sup> WAP-free hi-res cameras, including new doorbell, or original iSee Video Cameras. Additionally, when used with StarLink Connect, the universal communicator provides the iBridge Touch touchscreen with a conventional virtual keypad mode that mirrors top panel brand keypads, ADT<sup>®</sup>/Honeywell<sup>®</sup>, DSC<sup>®</sup> & Napco, including providing dealers with full keypad programming capability. Other new dealer advantages include easy update command, a *Configuration Wizard*, and super easy *WiFi network-connect*.

Ask for the new iBridge Touch at your distributor, also available are free Sales Materials in full presentation or trifold/mailer format (XXXXX). For more contact Napco at 1.800.645.9445; email [salesinfo@napcosecurity.com](mailto:salesinfo@napcosecurity.com), or ask your local [NAPCO sales representative](#). Or try it yourself at ISC East this November, at NAPCO booth 207.
