

PRODUCT SOLUTIONS BRIEF  
**COMMSCOPE**

**DATA CENTRE INFRASTRUCTURE MANAGEMENT**

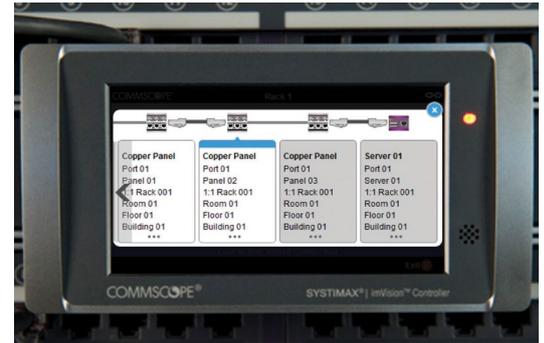

Through our strong global partnerships and alliances with manufacturers such as CommScope, we are able to present you with the following offering to meet your specific data centre requirements.

**imVision®**

CommScope's imVision is a sophisticated approach to managing the complex infrastructure cabling and connectivity at the heart of the data centre. It combines intelligent hardware and software to provide users with unprecedented real-time visibility and control over their physical layer.

The results are better capacity management of ports and cabling, higher availability, reduced mean-time-to-recovery, automated change management and faster time-to-value when deploying new IT assets as well as improved efficiency and productivity of IT departments.

**CHALLENGE SOLVERS**

- Provides end-to-end documentation of physical layer and records all changes in real-time
- Locates devices and problems on your network
- Enhances change management, simplifies audits and compliance, increases operational efficiency, uptime and productivity
- Does not require use of special patch cords

**THE ANIXTER APPROACH**

Five senses of DCIM

- **Asset management**  
Implement a centralised asset management process with an easily maintainable database.
- **Change management**  
Integrate move, add and change activity with existing work order systems to automate the workflow process.

**THE COMMSCOPE SOLUTION**

| SOFTWARE TYPE               | HARDWARE OPTIONS             | SERVICE OPTIONS                              |

**WHAT WE HEAR**

Challenges from various data centre stakeholders:

**INTEGRATING** with business process

No technology **EVALUATION** tools

Supplier **INTEGRATION** competency

Interdepartmental **CONFLICT**

Cost of **IMPLEMENTATION**

**Infrastructure as a Platform**  
by Anixter

Infrastructure as a Platform by Anixter provides an investigative methodology that uncovers gaps in your data centre infrastructure management strategy and helps you reclaim stranded capacity.

## CONFIGURE

We help you discover and map your specific needs to the best solution.

- Intelligence enabled or ready solutions
- Panel style, type and port density
- Sliding or fixed fibre shelves
- Appropriate software licence

## BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- imVision controller
- iPatch® Evolve patch panels
- Fibre shelves
- Software assurance

## DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labelling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

## ASSET MANAGEMENT

- Eliminates manual record updating of physical layer
- Monitors and controls all sites globally from one location
- Automatically sends updates when changes occur in the field
- Gives a high-level, real-time view of end-to-end network connections
- Provides more information that gives you greater strategic insight

## CHANGE MANAGEMENT

- Detects and sends alerts of unauthorised changes
- Makes electronic work orders for routine changes simple to implement
- Provides tighter security throughout your network
- Automates existing workflow.
- Manages both SAN and Ethernet networks in the data centre

**About Anixter:** [anixter.com/aboutus](https://www.anixter.com/aboutus)  
**Legal Statement:** [anixter.com/legalstatement](https://www.anixter.com/legalstatement)

At Anixter, we enable the connected world. By building, connecting, protecting and powering valuable assets and critical infrastructures, we help to sustain and grow businesses and communities worldwide. We accomplish this by offering full-line solutions, technical intelligence, supply chain expertise and an unmatched global distribution network.
