

PRODUCT SOLUTIONS BRIEF

BOSCH

COMMERCIAL BUILDING RISK MANAGEMENT

Through our strong global partnerships and alliances with manufacturers such as Bosch, we are able to present you with the following offering to meet your specific commercial building requirements.

MIC IP Starlight 7000 HD

Bosch's MIC IP Starlight 7000 HD cameras are built upon an advanced pan/tilt/zoom (PTZ) platform that complies with tough industry standards such as IP68, NEMA 6P and IK10 for extreme mechanical strength and durability. By using the latest technology in intelligent coding and Content-Based Imaging Technology (CBIT), the HD module delivers high-resolution video streaming even under challenging low-light conditions.

MIC IP Starlight 7000 HD

CHALLENGE SOLVERS

- It is designed to last in surveillance applications that are beyond the mechanical capabilities of normal PTZ domes or conventional positioning systems.
- Patented, integrated Constant Light technology automatically controls and adjusts output to deliver a consistent level of illumination performance throughout the life of the product, even when operating in fluctuating temperatures.
- The built-in Intelligent Video Analytics (IVA) is used to follow an individual or an object continuously.
- CBIT is used to radically improve image quality in all lighting conditions and to identify areas for enhanced processing.

THE ANIXTER APPROACH

- **Property perimeter**
Establish a physical boundary around the property edge to deter external threats.

THE BOSCH SOLUTION

BOSCH
Invented for life

WHAT WE HEAR

Challenges from the various commercial building stakeholders are:

Providing a **SAFE** workplace

Reducing **THEFT**

Achieving **REGULATORY COMPLIANCE**

Preventing **CYBER THREATS**

Limiting physical building and network **ACCESSIBILITY**

**Infrastructure
as a Platform**
by Anixter

Infrastructure as a Platform by Anixter provides a practical, configurable and integrated approach to deploy physical security infrastructure into your commercial building environment.

CONFIGURE

We help you discover and map your specific needs to the best solution.

- Camera color
- Mounting location
- Power requirements
- Lighting needs

BUNDLE

Your validated, preconfigured solutions are packaged and site ready.

- IR/white light illuminators
- Power supply units
- Mounting brackets
- PoE midspan

DEPLOY

Controlled, repeatable solutions are delivered on time and under budget.

- Custom packaging and labeling
- Time-sensitive delivery options
- Staged project shipping
- Tailored last-mile delivery

BOSCH MIC IP FEATURES

✓ PROVIDES A SAFE WORKPLACE

- Sophisticated alarm responses
- Equipped with high-performance 30x lens
- Optional IR/white light illuminators that provide detection of objects up to 175 m (575 ft.)
- Window-defrosting function

✓ FEATURES A STANDARDS-BASED, OPEN-ARCHITECTURE PLATFORM

- Complies with IP68, NEMA 6P and IK10 standards
- Conforms to the ONVIF (Open Network Video Interface Forum) specification
- Complies with UL, CE, CSA, EN, and IEC Standards 60950-1 & 22
- Complies with the SMPTE 296M-2001 Standard

MIC IP Starlight 7000 HD with illuminators
